Align this line with top of plastic sheet for correct hole spacing

### **Hole Cutting Template - Extended (16" version)**

- 1.) Print out this sheet at 100% on **legal-sized** paper in landscape for accurate hole spacing
- 2.) Place this under the plastic sheet and center it while keeping the top line flush with the guide
- 3.) Using a marker, place a dot on the plastic at the center of each cross in the circles above
